- SDRC – 6/2/17. EPS has cited removal of specimen tree as a major issue. On referral.
- Architecture should be improved by adding brick where highly visible. Architecture of two buildings should be coordinated.
- Portion of site (“not part of DSP”) should be included at least as DSP for infrastructure as it has grading & SWM on it. Also, its interim condition should be indicated.

CITIZEN OPPOSITION? YES OR NO
SIGNIFICANT ISSUES
- Applicant is filing a variance for the distance to residential property. This doesn’t seem like an easy variance to
  approve.
- Applicant still arguing they are not a Trash Removal Service – relevant to the DSP’s necessity, not its
  approvability.
- May be ready to post if applicant is okay with a disapproval recommendation or a new reviewer might have a
different perspective!
- Applicant still making above argument. Operated under valid Use and Occupancy since 1999.
- When name was changed they were told they were now a “trash removal service”. No change to original use
  no dispatching.
- Debbie stands firm that DSP is needed.
- Scheduling meeting with applicant to discuss variance.
- 6/25/12 Engineer called to see where application left off.
- Applicant caught operating without permit now need to get approval.
- In DDO which prohibits a trash removal service.
- Advised applicant they could file application to amend the DDO requirement but that recommendation would
  still be disapproval.

SIGNIFICANT ISSUES
- Wells Fargo Bank has been listed as owner and a letter received from them has been deemed legally adequate to appoint Pat Ricker agent for the purposes of processing this application.
- However, we need a revised application reflecting correct owner/applicant information. Upon its receipt we will commence review of the project.
- Received revised application. Will be sending email suggesting work on referral comments re-commence.
- May 11, 2011. Will entirely resend referrals regarding the case when an acceptable application is received.
- We have discovered that this application includes some of the Moore Property, which has not yet received final approval (DSP-09015). A separate revision to that DSP would be the appropriate application to pursue for changes to the Moore Property.
- Emailed applicant’s representatives asking what course they intend to take with the application… revise and resubmit???
- Waiting for revised plans for re-referral.
- There has been absolutely no movement on this project 6/8.
